Work Experience

Freelance Web Developer • 03/2024 - Present

- Designed and developed custom, responsive websites for clients across various industries, translating business requirements into scalable digital solutions.
- Collaborated directly with clients to define project scope, timelines, and technical requirements.
- Integrated third-party APIs and CMS platforms to support client business operations.
- Optimized websites for performance, accessibility, SEO, and cross-browser compatibility.
- Managed full project lifecycle including planning, development, deployment, and post-launch support.

Yummly • 01/2022 - 03/2024

Senior UI/UX Designer

- Developed a comprehensive Figma component library, enhancing design consistency and streamlining developer handoff process.
- Led the initiative to implement a design tokens system, fostering collaboration between design and engineering teams.
- Integrated design tokens into the component library to enable any brand, accessibility, and theming needs.
- Streamlined the handoff process by creating detailed documentation of UI patterns, enhancing collaboration between design and engineering teams.
- Collaborated with frontend engineers to enhance their component libraries, resulting in a 63% reduction in lines of code written

Proctorio • 05/2020 - 12/2021

Software Engineer

- Maintained, documented, and improved the company-wide design system and shared component library.
- Contributed to the development and maintenance of a custom Web Component framework and reusable component library.
- Spearheaded the development and launch of a new company website from concept to production.

Handled • 01/2020 - 04/2020

Frontend Developer

- Collaborated closely with the product design team to implement pixel-perfect, high-fidelity user interfaces.
- Standardized application styles in alignment with the company design system to ensure visual and functional consistency.
- Developed and maintained an internal component library fully aligned with the design system to improve re-usability and development efficiency.
- Implemented end-to-end testing to increase test coverage and ensure reliability.

Madden Media • 07/2018 - 01/2020

Creative Specialist

- Developed comprehensive style guides and high-fidelity design comps to ensure seamless developer handoff and implementation accuracy.
- Collaborated with stakeholders to design intuitive web layouts aligned with the client's business goals.
- Designed a range of marketing collateral across digital and print to support brand and campaign initiatives.

Well Being Journal • 12/2016 - 07/2018

Digital Media Manager & Layout Designer

- Produced and delivered a full bi-monthly publication from concept through final production, ensuring on-time release and visual consistency.
- Designed engaging, visually compelling layouts and feature spreads aligned with brand standards and editorial direction.
- Managed intake, organization, and placement of editorial and advertising assets throughout the production cycle.
- Collaborated closely with editors and content contributors to refine layouts and ensure accurate, high-quality presentation of content.
- Cultivated and maintained strong relationships with advertisers, providing in-house design support for ad creation and placement.
- Maintained and updated the company's e-commerce store, ensuring accurate product listings.
